

Circular economy in Fryslân, the way back or the way forward?

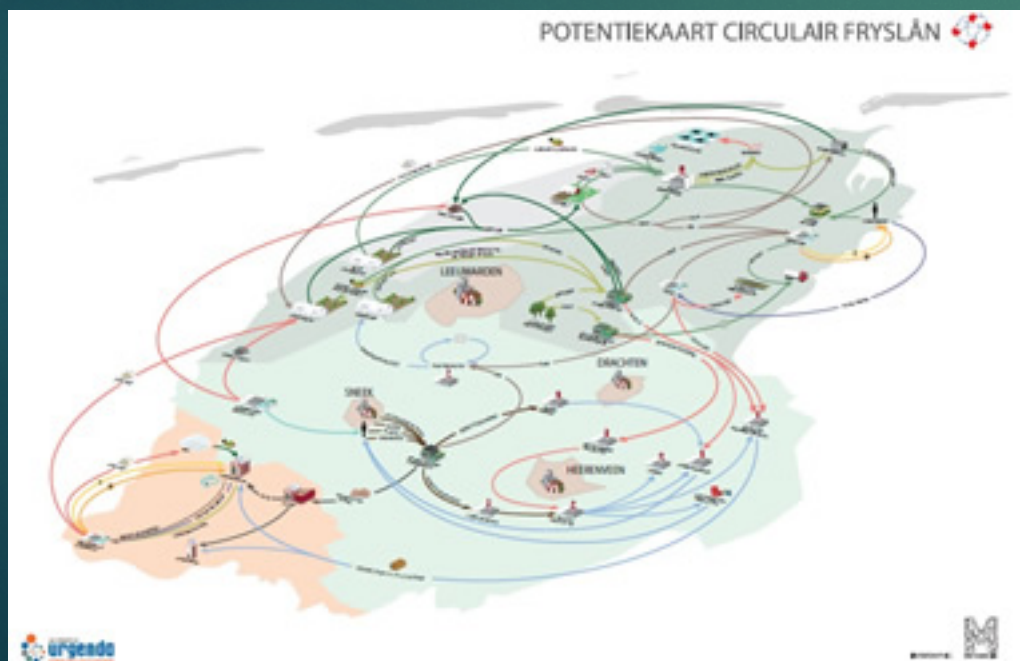

T.S. HAZENBERG, PROVINCE OF FRYSLÂN

Smart specialization: based on tacit knowledge

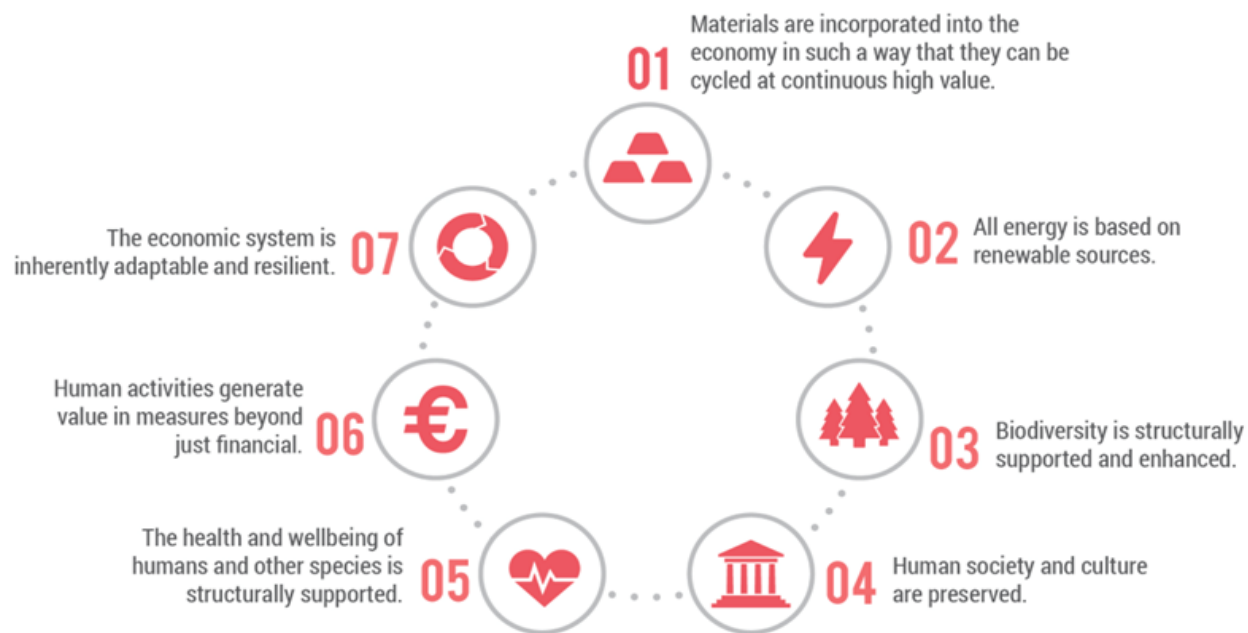

Circular economy in Fryslân, a successful bottom-up approach

Our policy on circular economy

<https://www.youtube.com/watch?v=zDo6DX7hksc>

- Facilitate our regional transition agenda's and therewith contribute to the national agenda's;
- Lead by example: circular purchasement

Conclusions:

- We want to share our knowledge on watertechnology and share our innovation-infrastructure like our demosites → round tables
- We are looking for cross-sectoral cooperation with other regions, especially on water issues → round-tables
- We want to share our policy-experiences; facilitate transition agenda's, circular procurement. Learn from each other → policy lab
- Find out with other regions what the 7 principles of circular economy mean for our regional policy → policy lab.
