

SCREEN

Synergic Circular
Economy across
European regions

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No730313

Project presentation

Carlo Polidori – Project Manager

LONDON

SCREEN local workshop – 22 November 2017

Horizon 2020 Coordinating/Supporting Action - Duration:24 months, started on 01/11/2016

16 European regions from 12 different European countries, plus 1 UK national body

One partner is “La Reunion” (French overseas territory), interested to apply the project findings in the relationships with their African neighbouring countries

- The main objective is the definition of a common agreed and replicable systemic approach towards a transition to Circular Economy and the synergic application of different funds
- Sustaining the regional stakeholders involved in circular economy activities in line with the Smart Specialisation of each region;
- Connecting them in a trans regional operational framework;

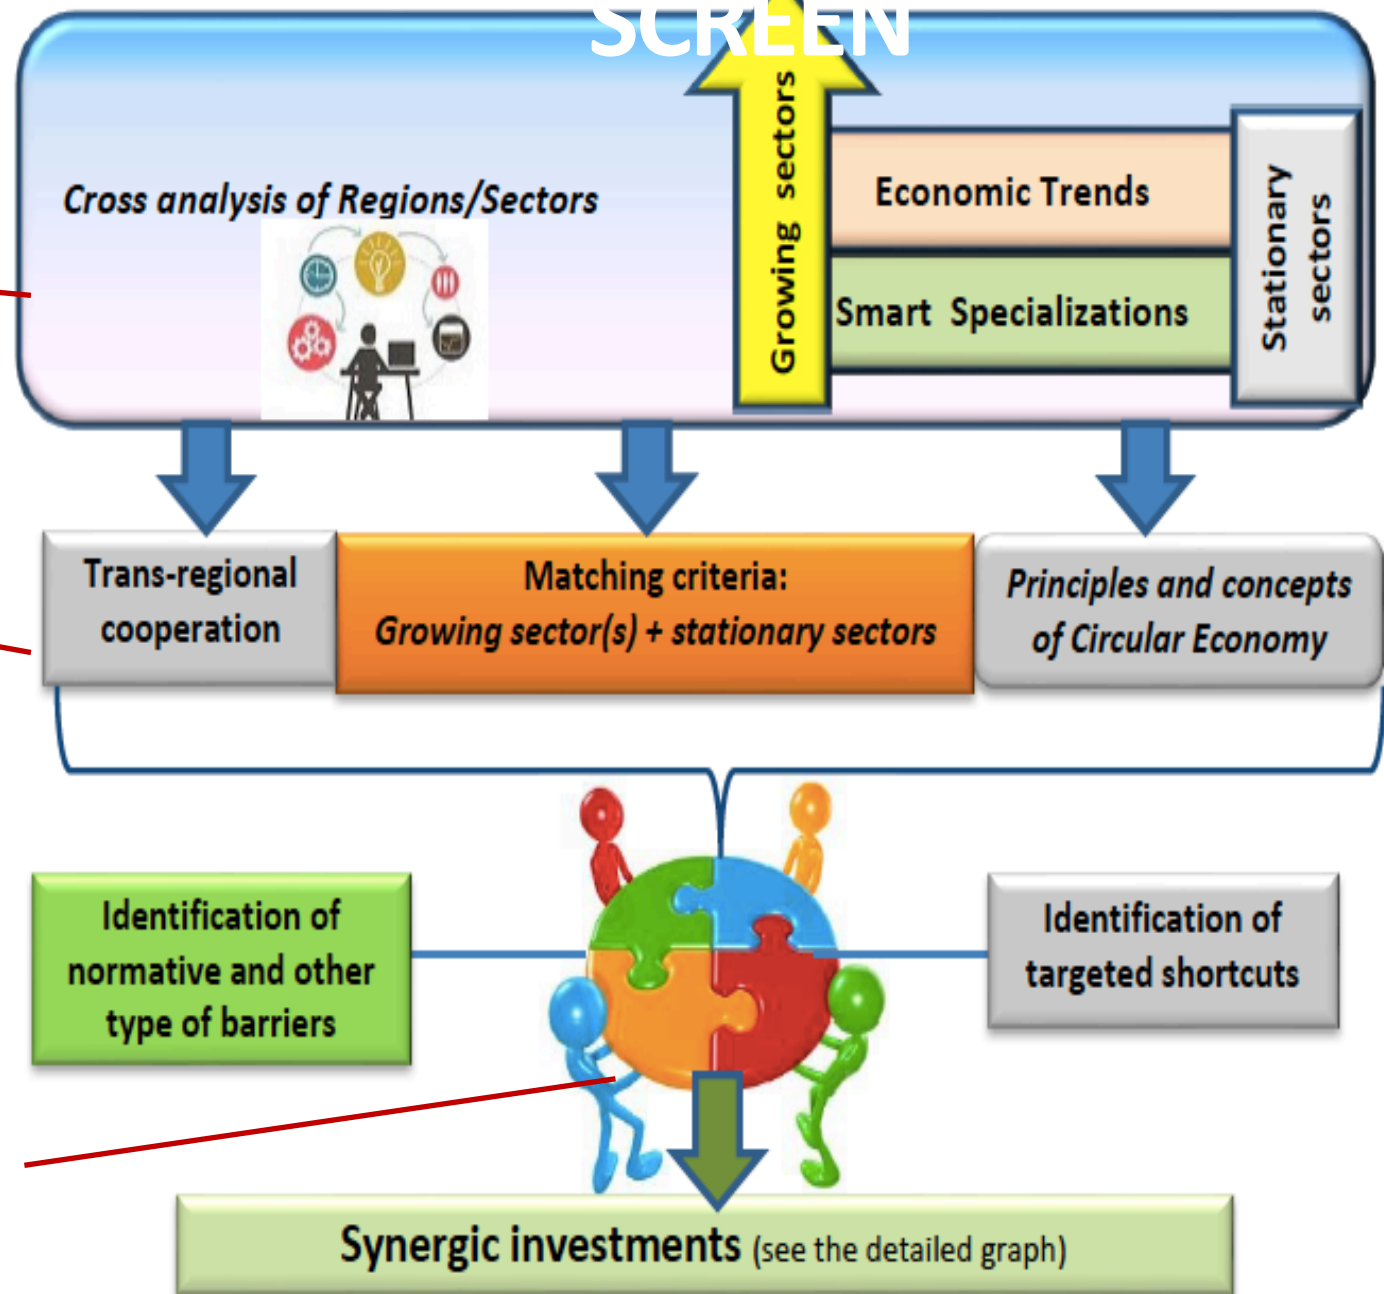

SCREEN

Tool for the local analysis

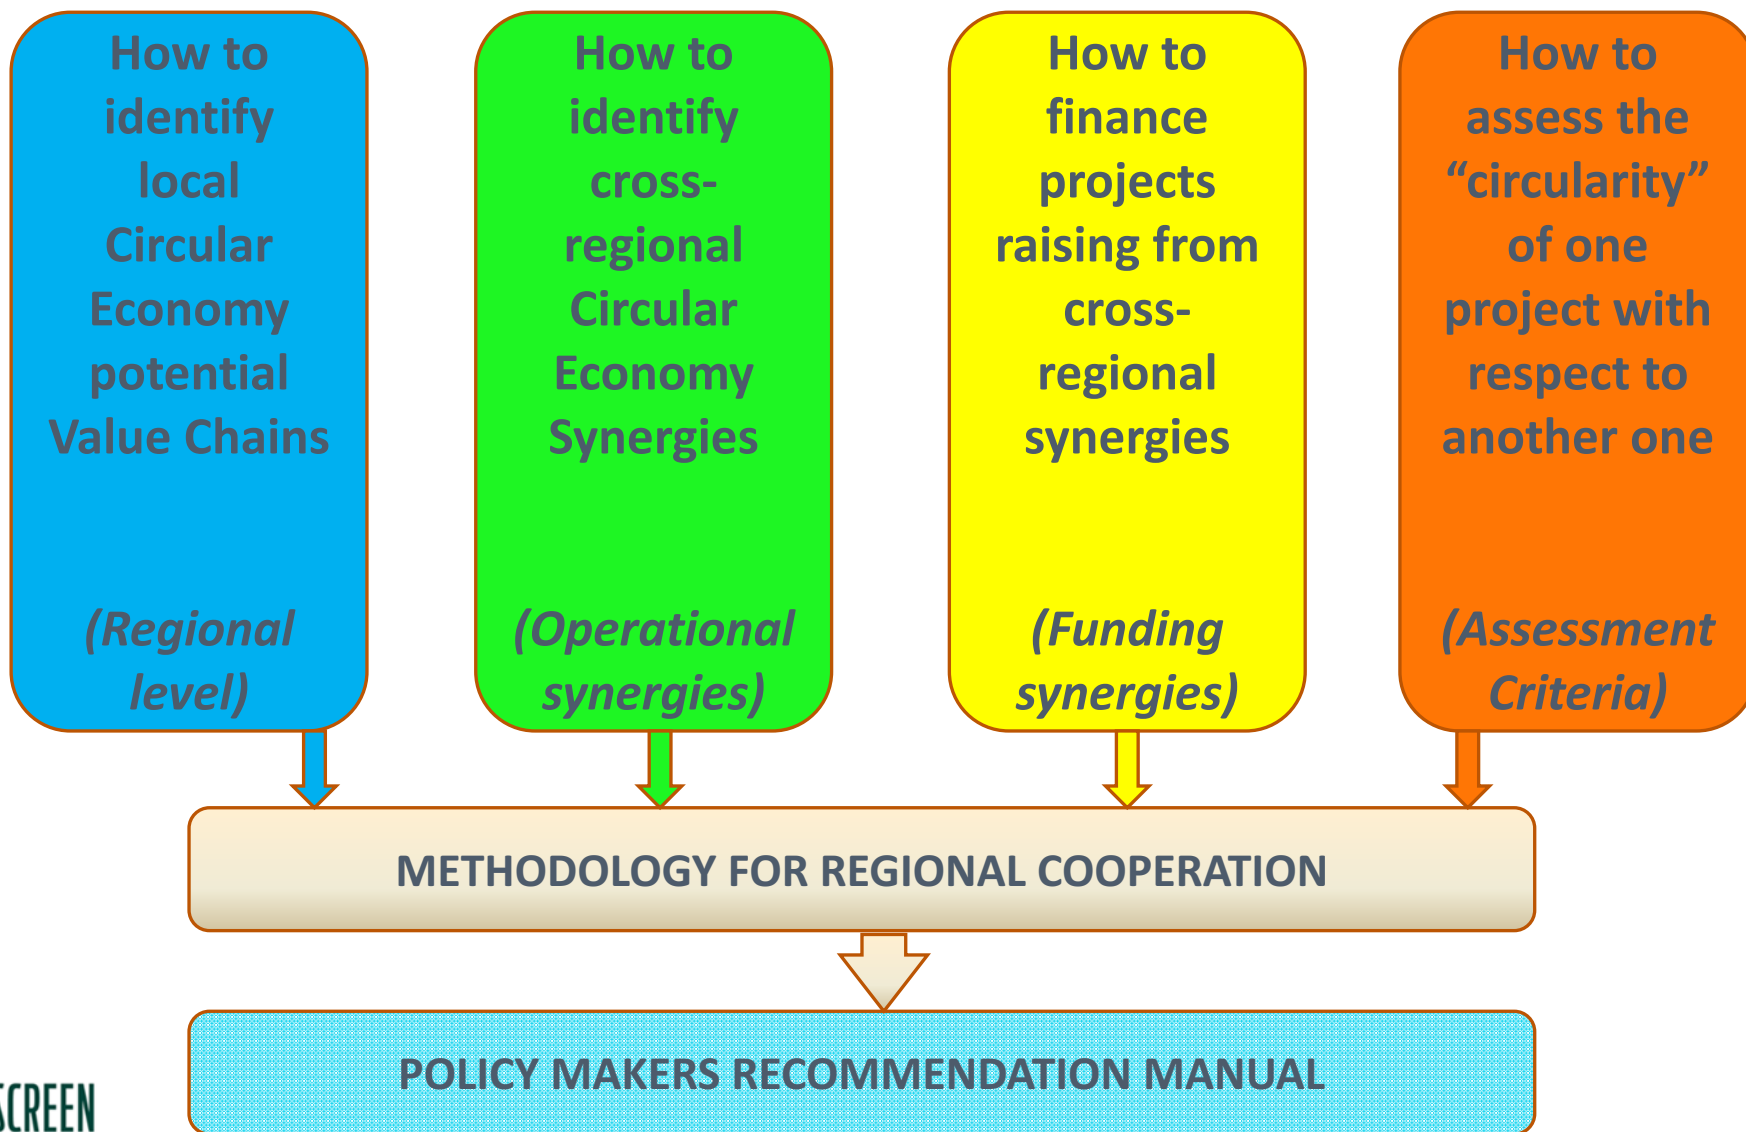

Tool for the cross-regional analysis

4 International workshops open to stakeholders
(First one held in Milano and second one in London)

POLICY LAB

The four steps of the SCREEN project

How to
finance
projects
raising
from
cross-
regional
synergies

(Funding
synergies)

SCREEN Laboratory on Policies (Policy Lab)

Composed by:

- *16 Participating regions*
- *European Commission services dealing with the Circular Economy Package*
- *3 European no profit organizations .*

Physical meetings plus continuous discussion on a specific LinkedIn Group

Details, working methodology and minutes of the meetings available at
<http://www.screen-lab.eu/Policy-Lab.html>

1) Need of common understanding among the involved regions

How to
assess the
“circularity”
of one
project with
respect to
another one

*(Assessing
Criteria)*

Assessment criteria for circular economy projects

- Should be additional respect to the ones usually adopted by each region
- Help to make a ranking list of projects to be financed
- Optional for the applicant (in a first period), but if used may lead to an higher score
- Proposal to the European Commission for their application as “*Additional criteria*” (in case of equal score) in Circular economy calls.

2) Assessment criteria proposed at the Policy Lab (still under discussion)

How to
assess the
“circularity”
of one
project with
respect to
another one

(Assessing
Criteria)

Criterion 1: *“Mass of waste re-introduced in the production cycle” (Kg/year)*

Criterion 2: *“Net Energy balance respect to the previous system” (KWh/year).*

~~Criterion 3: *“Percentage of renewable energy used in the process” (from 0 to 100%)*~~

Rejected by the last Policy Lab!

Criterion 4 (**Socio economic criterion**): *“Net balance of jobs, given by the number of new jobs created by the circular economy project, minus the number of jobs lost in the previous linear process”.*

How stakeholders can contribute to and have advantages from SCREEN ?

Send your comments and suggestions on the proposed additional criteria to info@screen-lab.eu

The final recommendation to the Policy Makers will take them into account!

Our work is still in progress.....

STAY TUNED!

Welcome to the **SCREEN** project website!

SCREEN aims at the definition of a replicable systemic approach towards a transition to Circular Economy in EU regions within the context of the Smart Specialization Strategy, through the identification and implementation of operational synergies between R&I investments from H2020 and the European Structural and Investment Funds, thus contributing to novel future eco-innovative and horizontal business models across different value chains.
